

# Solid Wood Tension Strap

### Directions for Use:

Secure tension plate in the slot of the first panel.

Lay the tension plate with the ratchet on the other panel you would like to pull together with the ratchet in the open position.

Use the Tension Strap at intervals of a maximum of 1.5m.

After releasing the ratchet safety device, pull the belt tightly and stretch with the ratchet handle.

Apply tension in such a way that the panels remain flat.

For Full instructions please consult the instruction leaflet included in each pack.

### Consumer Benefits:

A solid wood tension strap will ensure the floor is tightly fitted with no gaps.

### Retailer Opportunity:

Solid wood Tension Strap can be sold with all solid wood flooring sales.

### Product Description:

Solid Wood Tension Strap 18-22mm Flooring.

### Key Features:

- Unika Solid Wood Tension Strap is designed to ensure several rows of floor panels at a time are tight and in position.
- We recommend that you use 3-4 Tension Straps on a standard floor to guarantee no open joints.
