Solid Wood Scotia

Product Description:

Solid Scotia Beading – 2400mm

Key Features:

- Unika Solid wood scotia is designed to cover the expansion gap between the floor and skirting. This will ensure a perfect finish to all veneer, engineered and solid wood floors.

- Solid wood scotia is available in 2.4 metre lengths with a radius of 20mm. This radius is sufficient to cover the expansion gap set by the majority of solid wood flooring manufacturers.

- Solid wood scotia can be pinned or glued (using MultiFix) to skirting and is easily mitred.

- Produced from the same timber used in the profile range Solid Wood Scotia is available in the following species:

1. American White Oak (available in lacquered and unlacquered)
2. European Oak (lacquered)
3. Canadian Maple (lacquered)
4. Beech (lacquered)
5. Kempas (Stained Beech – lacquered)
6. Dark Cherry (Stained Beech – lacquered)
7. Merbau (Stained Beech – lacquered)
8. Walnut (lacquered)
9. Walnut (Stained)
10. Carina Birch (Stained)
11. Ash

Directions for Use:

To Fix Unika Solid Wood Scotia in place, simply:

Measure and carefully cut the scotia to the correct length.

Place a bead of Unika MultiFix on the reverse of the scotia.

Hold in place until secure.

Wipe up any excess MultiFix with a clean damp cloth.

Consumer Benefits:

Unika offers a range of 8 species to match the most popular flooring finishes and these also complement the floor profile range.

Retailer Opportunity:

Solid wood scotia can be sold with every solid wood flooring sale.

Profile species match the most popular solid wood flooring and are being added to on a continuous basis. All species match the floor profile range.

All Unika Solid wood scotia is packed in tubes of 20 pieces to make handling easy.

Solid Wood Scotia and profile displays are available with a stock order.
